Our library is the biggest of these that have literally hundreds of thousands of different products represented.

Book Descriptions:

can am spyder manual

In Canada, products are distributed by Bombardier Recreational Products Inc. In USA, products are distributed by BRP US Inc. This is a nonexhaustive list of trademarks that are the property of Bombardier Recreational Products Inc. It is backed situation which, if not avoided, Bombardier Recreational could result in minor or moderate Products Inc. BRP warranty and a injury. Check our website at www.canam.brp.com for more information about upcoming training course availability. If you cannot take a training course specifically designed for the Spyder roadster, it is a good idea. It is important to know the location and operation of all controls, and to develop and practice smooth and coordinated use of them. Steer the handlebar in the direction you want to go. 2 Throttle The throttle is the right handgrip, and it controls engine speed. Hold in position. It allows to engage or release the electric parking brake. NOTE A key barrel is supplied in the glove box to use with the BRP optional trailer. Turn the cruise control to ON by sliding the cruise control button to the right. Otherwise, this could cause a vehicle loss of control. NOTE You can manually throttle the engine if you need to go faster than the set speed. To select low If the cruise control was cancelled and beams, push the switch to the down the cruise control switch is still at the position. The audio volume will mute. From the mute setting, pressing the UP button will reset the audio volume to its last setting. 11 Reverse Button The reverse button is located on top of the left handlebar housing. For minimum heat, press the LO intensity side of the switch. For maximum heat, press the HI intensity side of the switch. Always keep on observing the traffic and make sure the surrounding is clear and safe before doing so. Default riding Digital Display Description The display is divided in several areas Audio option package as follows. <http://kco.su/userfiles/emt-review-manual.xml>

CB optional Trip meter Preferences only available when vehicle is stopped, except for. Display We recommend you practice selecting 6 Trip Meter some functions on the infotainment Distance travelled in kilometers or center before getting on the road. You miles since the last reset. Two areas at the bottom can be used to display 2 of these 3 functions Engine speed, radio current preset or radio current frequency. To change the display, refer to 1 Engine Coolant Temperature. The radio player is connected to the vehicle and will remain tuned to that station. Under all riding conditions, the needle should stay within this range. When done, close cover then push on the lower end of glove box to latch it. NOTE Be aware that objects may have moved while riding. Pay attention not to drop objects while opening the cover. Always latch the cover after usage. When finished, lock the latches if desired. Two helmet hooks are provided under the seat to secure a helmet. Flip the footpeg downward. Open seat. Starting and Stopping the Engine Starting the Engine WARNING Exhaust gas contains poisonous carbon monoxide that can rapidly accumulate in an enclosed or poorly ventilated area. Do not while starting the engine. The centrifuge 3. Follow the NOTE The breakin inspection is per. Higher spring preload provides a firmer ride and is recommended for heavy loads, rough road conditions and more challenging riding. This might damage the air suspension. Releasing the switch will keep the set point after a few seconds. NOTE On models

without separate analog gauges, the temperature bar gauge will be replaced by the suspension bar gauge. This section will help vehicles behind you that may not be you understand some of the vehicle able to stop as quickly. Surfaces With Poor Traction Proper tire inflation pressure and tread The grip of tires on the road surface condition are important for maintaining limits the maximum braking. <http://p-jtech.com/userData/board/carrier-fa4anf042-manual.xml>

Large and rapid steering handlebar movements can cause the vehicle to go out of control, spin, tip or roll over. Excess Speed The VSS does not control the vehicle speed, except when SCS intervenes. Even if your blood alcohol level is not over the legal limit, your judgment and skills are impaired by any alcohol consumption. You must be physically able to operate all controls, turn the handlebar through the full range of steering, mount and dismount, and monitor your surround. Even though the vehicle is more than helmet use significantly reduces stable at low speeds than a motorcycle the risk of brain injury. Other than the wind, sun, heat, cold and abrasiveresistant protective gear flying objects. Gloves that fit snugly made of synthetic fabrics are good will improve grip on the handlebar and choices, too. A dry rider will be much more comfortable and alert than a rider who is wet and cold. One or twopiece styles are available, and those designed specifically for motorcycle are best. Highvisibility or orange or yellow colors are good choices. Always keep both hands and both feet in position so that you can operate the controls easily. The wrist should typically be aligned straight with the arm this position helps you apply the amount of throttle you want. You will be controlling your right foot pressing the brake pedal, movement using only the clutch in the pull in and hold the clutch lever. Directions This exercise is similar to what you did before, except you'll be applying the brake more firmly, working up to braking as hard as possible. Directions 6 m 20 ft Weave 1. Follow agram below. Do not use any fixed or the same process and shift up or down hard, heavy objects as markers for this one gear at a time. Have your helper stand at a safe distance away e.g., beyond the end of your practice area. Directions This exercise is similar to what you did before, except you'll be applying the brake more firmly, working up to braking as hard as possible.

You may want to use the parking lot aisles for this exercise rather than riding in the spaces. When you do not apply throttle while downshifting, engine braking will slow the vehicle. Many riding more weight, and visibility may of these strategies are similar to those be limited in fog, in curves or at night. Make sure turn signals able to stop as quickly as the Spyder are off after you have completed your roadster. When you In dim light, such as at night, at dawn are being followed by a large vehicle, or dusk, or in poor weather such as rain passing vehicles may not be able to or fog, you may be harder to see. This can make through turns. Going up hills, a lower gear can too fast. Adjust throttle as you release help maintain enough power. In curves, do not try to follow the road. As with other vehicles, the the path of motorcycles. Avoid hard braking, downshifting, or sharp steering. If a front tire fails, the vehicle may tend to pull in the direction of the failed tire, so you will need to maintain a firm grip on the handlebar to control your direction. Operating with Extra Weight Carrying a passenger or heavy cargo. Be sure the passenger is wearing appropriate protective gear. The passenger should wear all of the protective gear recommended for the operator, particularly a helmet. It is very convenient to store items that could be needed quickly during a ride such as money for pay toll. NOTE A key barrel is supplied in the glove box to use with the BRP optional trailer. It is easier to destabilize an The use of any other trailer could empty trailer. When accelerating, it is damage the vehicle or interfere normal to shift at a higher RPM to avoid with the proper operation of the loading excessively the engine. When starting uphill from a stop, more clutch slippage is needed to prevent engine stalling. When riding uphill, more frequent downshift will be required so that engine has enough power to minimize speed variations.

A scale can be Use only a BRP hitch or a BRP up used to measure the weight at the proved equivalent. Unlike a typical motorcycle, you with those approved by BRP should make it common practice obtained from authorized to brake and turn at the same time. CanAm roadster dealer. True

False True False 12. Under normal conditions, . To stop quickly, press the brake 13. True pedal only. 14. 1 Make sure your lights and False reflectors are clean. You should do a preride inspection 2 Use your high beams whenever every time you ride. In addition, passengers can protect themselves by wearing seat belts. You should expect that riding the Spyder roadster is much riskier than riding in a car and that the risk of injury is more like the risk of injury when riding a motorcycle. Any person who rides this vehicle should read and understand this information on the vehicle before riding. Pull it out to read it, and be sure to securely put it back before riding. Use the Safety Card to review key information and when you are teaching new operators and passengers how to ride the vehicle. See an authorized CanAm roadster dealer. In the USA, if you believe that your vehicle has a defect which could cause a crash or could cause injury or death, you should immediately inform the National Highway Traffic Safety Adminis. This could break it. If possible, use chains or additional CAUTION If you need to push straps to attach the straps to the. Firmly attach the rear wheel 1. Strap around the rim of each front wheel tiedown strap to the rear of the and attached to the front of trailer trailer with a ratchet. Proper maintenance is the owners responsibility. The maintenance schedule does not exempt the preride inspection. WARNING Failure to properly maintain the vehicle according to the maintenance schedule and procedures can make it unsafe to operate. NOTE The breakin inspection is at the expense of the vehicle owner. We recommend that this inspection be signed by an authorized CanAm dealer.

Date of breakin inspection Authorized dealer signature. Body Panels Other important items in the maintenance schedule that are more difficult. Top Side Panel Removal 1. Open seat. 2. Open front storage compartment. 3. Rear Side Panel Removal 1. Remove middle side panel. 2. Tire Pressure Check pressure when tires are cold before using the vehicle. Tire pressure changes with the air temperature. Inspect the drive belt with the vehicle in neutral, engine off, on a level surface with plenty of room —. NOTE Running engine for at least 30 seconds allows the suction oil pump to drain the oil from the engine crankcase back into the oil tank. Pay attention to the following. 1. Check and clean the oil inlet and outlet orifices in hydraulic control module for dirt and contaminations. WARNING They should both be above the MIN. mark. New brakes will not operate at their maximum efficiency until their breakin is completed. Braking performance may be reduced, so use extra caution. Acid may leak out through the brake system. Refer to TRANSPORTING THE SPYDER ROADSTER p.106 detailed instructions. If both keys are lost, the ignition switch. Reinstall switch and panel when done. CanAm roadster dealer as soon as possible. 9. Connect one end of the black NEGATIVE jumper cable to the NEGA. Fuse Description Electrical Accessories Failure If any electrical accessories stop working on the vehicle, check for blown fuses and replace if necessary. WARNING Always turn the ignition switch to the OFF position before replacing a bulb to avoid electric shock. This would shorten the bulb life. Insert the new bulb into its socket then turn clockwise to lock it in position. If a fault is displayed, press the MODE button to skip the error message. If a problem persists, go to an authorized CanAm roadster dealer. If you operate the vehicle in LIMP HOME, avoid abrupt maneuvers and immediately go to the nearest authorized CanAm roadster dealer to have your vehicle serviced before riding again.

In LIMP HOME, the engine RPM is limited and therefore the vehicle speed. No warranty will be allowed by Bombardier Recreational Products Inc. In California, new motor vehicles must be designated, built and equipped to meet the States stringent antismog standards. Furthermore, BRP and its affiliates may use its customer list to distribute marketing and promotional information about BRP and related products. We will ask you to provide your name, address, phone number, the vehicle identification number and the date it was stolen. It is fully printable, print 1 page, 1 chapter or print the entire manual and put it in a 3ring binder. Once you download your manual it is yours forever. But unlike a traditional paper manual, this software can quickly search any term, locating the information you need in seconds. No more thumbing aimlessly through page after page as you would with a traditional manual. You can also create custom bookmarks and find that information you need over and over again, quickly and easily. TechSpark Studio programs also includes an integrated zoom and pan tool to easily focus on every detail clearly as possible. One of the best features is the ability to print specific pages or the entire program and if the pages get dirty and greasy, simply print a fresh copy the next time you need the information.

TechSpark Studio programs dont just include all of the model specific information for your vehicle you have, but also extensive basic service and maintenance information that can help with any general service and repair you need to accomplish. Plus gain quick access to the full online parts catalog and complete wiring diagrams for your vehicle. If you are a seller for this product, would you like to suggest updates through seller support To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Sandee Soloway 5.0 out of 5 stars I try to do some of my own work, and this has the info. The Spyder uses an ATVlike chassis. The Spyder was officially debuted on February 2007. However, before you tinker with your Spyder make sure you have a CanAm Spyder workshop manual to get the job done right. There are four model lines of Spyderys; some of the lines have additional trim packages, which can result in them having quite the variety of looks. In 2018, CanAm started producing a new lowercost line named the Ryker. It is intended for a younger demographic and does not bear the Spyder moniker. The Spyder RS series was a sport version with styling and seat position is more akin to a conventional sportbike. The Spyder ST series was a sportstouring hybrid variant of the Spyder, with removable saddlebags and an upright seat. This could have been compared to a sporttouring motorcycle. However, both were discontinued in 2016. The Spyder RT series was a touring version, with a top case and integrated saddlebags. Comparable to a Touring motorcycle, there were two Trim Packages in the RT Line, the RTS and the RTLimited. Some liken it to a Cruiser motorcycle, where the seating is situated much lower to the ground.

There are several trim packages offered in the F3 series, such as the base model F3, the F3T Touring, the F3S Special, F3L Limited, and an F3 Limited 10th 2017 Anniversary Edition. There are two trim packages offered for the Ryker, the base model, and the Rally Edition. The CanAm brand continues to be a staple of the Spyder's appeal and doesnt appear to be going anywhere anytime soon. Make sure you grab your CanAm service manual today. To start viewing messages, I finally has

my 2009 Spyder delivered, I dont have much history on this spyder so I would like to go ahead and do the maintenance so I have a fresh baseline. Does anyone have an electronic version of the manuals you could send me as my spyder didnt come with them. Im planning on oil change to start off with. It seems to drive well, had a pretty hard clutch where it catches at the end range of the release. Stalled it out a few times because I guess I was not giving it enough throttle. It has 9k miles on it. Ill have to post some pictures soon. This thing is a beast and when I say one of a kind. I mean one of a kind. This will cover the spyder. Not knowing much about your ryde I would check the clutch lever position as it is adjustable or just flush the system and add new DOT4 fluid. Welcome to the world of spyders Lots of great info there. I finally has my 2009 Spyder delivered, I dont have much history on this spyder so I would like to go ahead and do the maintenance so I have a fresh baseline. Does anyone have an electronic version of the manuals you could send me as my spyder didnt come with them. I know later model manuals are there. If Not using the BRP Oil it should be rated JASO MA2!!! MA is NOT MA2 MA2 is best for Spyder engine. Good luck I sold mine with 35,000 miles and Loved it! Sea Doo GTISE 90 Jet Ski!! Rotax 1330 ACE InLine 3Cylinder Engine Custom riding position with UFit System New Sport Mode Cruise Control Distinctive "S" Trim Signature Machined, Deep Black High Gloss Front Wheels Refined Front Fenders with LED Lights Black Embossed Suede Seat Engine. Throughout the 1970s, riders of these bikes had great success in various motocross races, establishing the brand among these bike enthusiasts. These early cycles used an engine from the Austrian Rotax company. This engine employed a compact rotary disc system, which gave it a gain in horsepower over Japanese bikes that were using piston port engines. The MX3 of 1977 was the forerunner of Can Ams lineup and had 36 horsepower, a full 6 horsepower more than even its closest competitor. Unfortunately, soon after, the company stopped making vehicles with a recreation focus and instead turned their attention to transit equipment and aircraft manufacturing. Then, in 1983, the Can Am brand of motorcycles was outsourced to Armstrong CCM Motorcycles.

1987 was the last year of production for Can Ams motorcycle lines. Can Am was resurrected and revolutionized in 2006 with a total rebranding and the introduction of their allterrain vehicles ATVs. A year later, in 2007, the Can Am Spyder was unveiled. This innovative threewheel roadster is now leading the way for similar models in Can Ams lineup. These vehicles are eye-catching and offer wide stance that's stable and offers great control. These vehicles have wide appeal. Download Chrome Download Firefox Download Microsoft Edge Need Help.
